**Educational Nonprofits Focused on
Dropout Prevention and Recovery**

More than 15,000 high school graduates to date!

SIATech is an award-winning dropout recovery program. SIATech is a fully-accredited network of public charter high schools that operates in partnership with Job Corps, WIOA programs, and school districts. The schools serve low-income, previously out-of-school youth. SIATech excels at identifying student strengths and individualizing instruction to meet each student's needs and goals. The school's safe and caring setting enables students to re-engage, take charge of their learning, and obtain the tools needed to be college-and career-ready. SIATech's family of schools has graduated more than 15,000 previous dropouts since 1998.

SIATech high school sites are located in the following cities:

California

- | | | |
|-------------|---------------|----------------|
| Chula Vista | Moreno Valley | Sacramento |
| El Centro | Oceanside | San Bernardino |
| Indio | Perris | San Diego |
| Long Beach | Riverside | San Jose |
| Los Angeles | | |

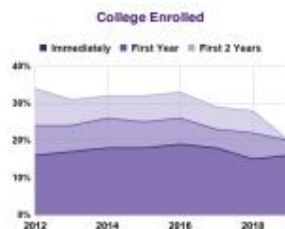

**15,000 Graduates
and Counting!**

SIATech schools have remained focused on dropout recovery since they were established in 1998. SIATech enrolls students throughout the school year in order to welcome students back for a second chance at their education. Students must meet all the state requirements to earn a high school diploma. Students are not charged tuition as the schools are public and free to students. Upon enrollment, each student credit history and interests are evaluated to create a personalized learning plan. SIATech schools have provided the gateway to a better future for more than 15,000 graduates!

College-Going Rates

SIATech schools provide an environment for students to get ready for college and careers. SIATech students are often the first in their family to graduate from high school. Many had to drop out to help their families earn money in order to make ends meet. For newly enrolled students, it is often unthinkable to them that they will go to college. However, this perspective changes as students progress through the curriculum and build trusting relationships with caring SIATech staff. Within two years of graduation, an average of 32% of SIATech graduates will enroll in an institution of higher learning. SIATech is proud of its alumni and support their individualized paths to lifetime goal fulfillment.

SIATech Students are Highly Engaged

SIATech students are engaged consistently and constantly in their curriculum and classrooms. The Gallup organization surveys schools across the nation annually on measurements of hope, engagement, entrepreneurial aspiration, and career/financial literacy. Gallup's results repeatedly illustrate the many ways SIATech provides an excellent educational environment for its students. Results from the Gallup Student Poll's demonstrate that SIATech students frequently give higher responses than student responses in the nationwide sample. In spite of previous difficulties in school, SIATech students are back on-track to success.
